

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Jeannine Wilk  
DOCKET NO.: 03-24388.001-R-1  
PARCEL NO.: 14-20-101-035-0000

The parties of record before the Property Tax Appeal Board are Jeannine Wilk, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 110-year old, two-story apartment building of frame construction containing 2,283 square feet of living area with a full unfinished basement and a one and one-half car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. The appellant's map indicates that the comparables are located one-quarter of a mile to one mile from the subject. The comparables are two-story or three-story apartment buildings of frame construction that range in age from 110 to 115 years. Two comparables have unfinished basements and two comparables have partial basements. Their living areas are from 1,881 to 2,850 square feet in size, and have improvement assessments of \$13.14 to \$15.04 per square foot. The subject property has an improvement assessment of \$20.72 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment was disclosed. In support of the subject's assessment, the board of review offered the property characteristic sheets and a spreadsheet detailing four suggested comparable properties located one to four blocks from the subject. The comparable properties consist of two-story

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds no change in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	8,456
IMPR.:	\$	47,306
TOTAL:	\$	55,762

apartment buildings of frame construction that range in age from 105 to 125 years with full, unfinished basements. Three comparables have two car garages. The dwellings contain 2,238 to 2,424 square feet of living area and have improvement assessments ranging from \$20.56 to \$23.23 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is not warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has not overcome this burden.

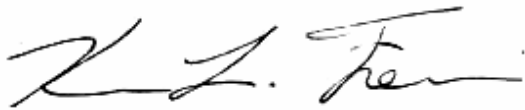

Both parties presented assessment data on a total of eight equity comparables. The appellant's comparable one differed in design from the subject. Comparable two was smaller than the subject and comparables three and four were larger than the subject. As a result, they received reduced weight in the board's analysis. The board of review's comparables were most similar to the subject in location, age, and physical characteristics and received the greatest weight in the Board's analysis. They had improvement assessments of \$20.56 to \$23.23 and support the subject's improvement assessment of \$20.72. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is supported by the most comparable properties contained in the record and a reduction in the subject's assessment is not warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has not adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is not warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
